

NISHANTH.G

software Engineer

EXPERIENCE

Mad Street Den, Chennai — Software Engineer

June 2019 - PRESENT

Incharge of whole pipeline and Backend for Project VueModel, which is an Automated On-Model Fashion Imagery solution that helps you improve engagement and conversions on your ecommerce site at one-fourth the cost of traditional photoshoot using ML and AI

Mad Street Den, Chennai — software Engineering intern

December 2018 - June 2019

Backend developer for a Project called Vue.ai, which is an end-to-end retail automation platform that is redesigning the future of retail with Artificial Intelligence. Using Image Recognition and Data Science - we extract catalog data, analyze it with user behavior and help your marketing, product and cataloging teams get actionable insights that improve customer experiences, drive conversions and reduce costs.

Mavens-I, Chennai — ML intern

June 2018 - August 2018

Experiment with cluster of cpu's and Predict if an instance is going to be hacked based on monitoring cpu stats and attributes using ML

EDUCATION

PSG College of Technology, Coimbatore — B-Tech IT

2015 - 2019

Graduated with First Class Honors and a GPA of 8.64/10
